

Stay with us and you will live and enjoy Lugano's historic center, the magnificent lake, and the town's elegant porticos and buildings.

Thanks to our unique location, you will be right in the heart of the shopping and business district.

Getting to the Hotel is both easy and convenient by all means of transportation. If you arrive by train, you may take the typical and picturesque funicular that runs every 5 minutes between Lugano train station and the heart of the City (the funicular stops just 30 meters from the hotel). During the quick 90 second trip you will be treated to an incredible view.

Our hotel is situated in a quiet pedestrian area, but our clients are allowed to get to the hotel's secure private garage by car. Three universal connectors for Tesla and other electric cars are at our guests' disposal in the garage.

If you arrive by plane, we can offer you multiple solutions to reach us from either Lugano-Agno or Milano-Malpensa airports.

In 2020, there will be big news. Hotel Lugano Dante is getting a new look!

From January 4th to March 15th 2020, we will be closed for renovation work.

January, February and March will be very challenging months for us since we're currently working on a very ambitious project. When we re-open in March, we will be welcoming you in a completely renovated venue... trendier than ever.

Even while we are closed, we will remain at your disposal for information or to answer any questions, so please contact us at:

- +41 (0)91 910 57 00 or
- info@hotel-luganodante.com
