

Conference Chairs

Prof. Dr. Lorenzo Cantoni - University in Lugano, Switzerland

Dr. Silvia De Ascaniis - University in Lugano, Switzerland

Why SSF

Sustainability in tourism is linked to issues of authenticity, awareness, cultural respect, quality of products.

The Swiss Sustainability Forum 2023 will focus on global and local issues related to sustainability in tourism. It will gather high-level scholars and experienced practitioners to present their latest research, practices and initiatives in order to provide a state-of-the art on the topic in the field, develop a shared global vision and inspire future actions.

During the conference, attendees will be surrounded by sustainability: from the high-tech environmentally friendly [venue \(click to find out more\)](#), to the meticulously selected local organic food, to the high quality topics covered by the experts.

Topics

Themes of interest include, but are not limited to:

- Different facets of sustainability in tourism
- Policies and strategies of tourism sustainability at the international level
- Ongoing projects at the national and local level

Deadlines

- Poster Submission: 17 Feb 2023
